Strong foundation in software development, UI/UX, AI/ML, and scalable application design, with experience delivering solutions across multiple real-world domains.

Experience

Chennai Turbo Riders (*Full-Stack Developer*) (Chennai, Remote) Sep 2025 – Present

Developed and maintained 10+ Production web pages and applications, improving platform performance, usability, and mobile responsiveness while supporting the team’s digital operations.

TT Infotech (*UX Intern*) (Chennai) Jul 2023 – Sep 2023

Designed 15+ user interfaces, wireframes, and interactive prototypes, collaborating with 5+ developers to improve usability, consistency, and overall user experience.

Projects

CTR[L]APS (*ctrlaps.ctrsports.in*)  Sep 2026 – Present

A race-weekend control room in your pocket: everyone who matters gets the right message, from the right person, before they need it — and never the ones they don't.

CTR Sports (*ctrsports.in*)  Mar 2026 – Aug 2026

Built a custom CMS platform to centralize and streamline the management of CTR’s teams, drivers, races, results, and digital content.

F4 Racing (*chennaiturboriders.in*)  Dec 2025 – Mar 2026

Developed the official website for the Chennai Turbo Riders F4 team, featuring team profiles, driver information, and race updates. Currently focusing on building a native CMS app for the CTR Organization.

Bharath Pharmacy *POS Software* Nov 2025 – Feb 2026

Built a pharmacy POS system with billing, inventory management, GST invoicing, customer management, and sales reporting.

HYGIEIA (*Arkhins.com/hygieia*)  Sep 2025 – Jan 2026

Developed an AI-powered medical diagnostic platform integrating machine learning models and an AI assistant for disease prediction and clinical insights.

BidNest (*bidnest-omega.vercel.app*)  Dec 2025 – May 2026

Developed a modern chit fund management platform with real-time payment tracking, auction management, and member administration using Next.js and Tailwind CSS.
